

**Make a clean sweep and say “no” to dust!**

**DORSICOAT®** – the dust-free product line for flooring coatings

# Particulate matter in floor construction

## How on earth can you prevent dust on site? Dorfner has the dust-free solution for floor coatings!

Dorfner is the first company anywhere in the world to have developed quartz sand and quartz sand blends for floor coatings that produce virtually no dust at all during installation. DORSICOAT® is the name of this new, easy-to-use product line from Dorfner. We're talking here about specially coated types of quartz sand that enable you to almost completely prevent the generation of dust on your building sites.

## The DORSICOAT® product range is something we are genuinely proud of!

Dorfner offers you a range of dust-free DORSICOAT® products for floor coatings. DORSICOAT® PQK products are tailor-made for epoxy (EP) and polyurethane (PU) resin systems, while DORSICOAT® PQW products are ideal for use with acrylate resins.

- DORSICOAT® is available in two different grain sizes for applying as dry shake and for setting the degree of anti-slip properties offered by the flooring.
- DORSICOAT® blends allow you to produce plastic mortars that are excellent to work with.
- Dorfner also offers formulated filler blends for all relevant resin systems that enable you to make top-class, self-leveling coatings for floors – exactly as you expect from a Dorfner product.

## Improve quality and save money with DORSICOAT®!

DORSICOAT® will help you prevent dust from causing unattractive surface defects in floor surfaces. But best of all:  
DORSICOAT® cuts the amount of topcoat needed by up to 15%.

**For greater safety at the workplace!**

**Less dust on the building site\***

Comparison of dust emission from  
(a) standard quartz sand – heavy dust formation  
(b) DORSICOAT® PQK 8 – extremely low dust generation

## DORSICOAT® guarantees you great safety!

Dorfner's DORSICOAT® product range has been developed in line with important recommendations, initiatives and campaigns run by Germany's Employers' Liability Insurance Association of the Construction Industry (BG BAU), such as "Less dust on the building site". When it comes to occupational health and safety, the DORSICOAT® range provides you with the best products on the market that enable you to comply with the most stringent of international regulations and legal requirements.

## DORSICOAT® product range

<b>Application</b>	<b>BINDER SYSTEM</b>	
	<b>EP, PU</b>	<b>MMA/PMMA</b>
Dry shake for setting the anti-slip level	DORSICOAT® PQK 7	DORSICOAT® PQW 7
Dry shake for setting the anti-slip level	DORSICOAT® PQK 8	DORSICOAT® PQW 8
Filler material for resin based screeds	DORSICOAT® PQK B1	DORSICOAT® PQW B1
Filler material for self-leveling, resin based coatings	DORSICOAT® PQK DF 100	DORSICOAT® PQW DF 100
Filler material for self-leveling, resin based coatings	DORSICOAT® PQK DF 16	DORSICOAT® PQW DF 16

# Benefits of DORSICOAT® to the customer at a glance

## Technically superior

- Chemically modified quartz sand for floor coatings
- Compatible with all resin systems
- Significant lower levels of particulate matter on construction sites
- Top-class dust prevention

## Leads the way when it comes to installation

- Pleasant, relaxed, dust-free working environment
- Simpler, lighter breathing masks
- Makes working a lot easier, especially in hot weather
- Excellent health and safety conditions

## An economic highlight

- More square meters laid per hour and hence greater productivity
- Significant savings with the topcoat
- Smaller outlay for breathing equipment
- Verified safety at the workplace
- In compliance with specifications, initiatives and campaigns run by Germany's Employers' Liability Insurance Association of the Construction Industry (BG BAU) and equivalent organizations in other countries

# About Dorfner

The Dorfner group specializes in mining and refining minerals that are used as functional filling materials in coatings for commercial and industrial flooring. Dorfner extracts its raw materials from its own deposits and refines them into finest quality brand products by means of its sophisticated particle technology and proprietary modification processes. Dorfner offers the flooring industry classic products such as DORSILIT<sup>®</sup>, DORSIMIX<sup>®</sup> and GRANUCOL<sup>®</sup>, which are the byword for performance and quality in this field. Completely new standards in the area of occupation health and safety have been set by our innovative DORSICOAT<sup>®</sup> product series that facilitates dust-free installation of floor coverings. And our portfolio is completed by our application service that goes by the name of "Flooring" and provides valuable tips on how to use our products.
